
OUR QUALITY MANAGEMENT

SBL Solutions is committed to providing the highest quality of work. This is achieved with a focus on safety and an in depth knowledge of all relevant Australia wide and individual State Standards and Installation Rules. We have a Workplace Health Safety and Environmental System (WHS&E) which is fully compliant to Australian legislation. Our WHS&E system has achieved Category 1 approval by CM3 and has ISO 9001, 45001, 14001 accreditation.

OUR GOAL

To assist the continued growth of the Wind Industry through out Australia by providing the highest standard of service, with an emphasis on safety and quality management. Our aim is to work with our clients to provide the best possible solutions and outcomes for any given scenario.

RENEWABLE ENERGY SOLUTIONS

Electrical & Mechanical

INTRODUCTION

Established in 2014 to provide the Wind Industry with highly skilled and capable work force of Electricians, Mechanical Fitters and Wind Turbine Technicians. We are currently licensed to carry out electrical contracting work Australia wide, SBL Solutions has a range of clients and has a focus on cultivating strong business and community relationships.

Our staff have experience working on Wind Farms and large scale commercial construction projects through out NSW, Victoria and South Australia. We have a wealth of in-depth, real-world experience when it comes to delivering successful project outcomes. We aim to provide the best team with a blend of skills to meet the needs of your project.

CORE COMPETENCIES

Our experienced team has been involved in Wind Farm Construction projects and Service Projects across Australia. Our main areas of expertise in the Wind Industry include:

- Complete Mechanical and Electrical Installation
- Low, Medium and High Voltage Cabling and Testing
- Commissioning
- Retrofit Programs
- 500 Hour and Annual Servicing
